P365[®] 380

LESS RECOIL, MORE CONTROL

The P365-380 offers all the same features as America's #1 selling micro-compact pistol, now in the softer shooting 380 caliber resulting in easier handling and less felt recoil. The P365 380 uses the same grip module and fire control unit as the popular 9mm version with a lightened slide and barrel making it completely compatible with all existing P365 holsters. With a Nitron[®] finished stainless slide, DLC barrel, and completely redesigned two-piece captured guide rod, the P365-380 is the most durable 380 micro-compact pistol on the market. Rigorously tested at SIG SAUER, the P365-380 was designed for all shooters, especially those with smaller hands and those who find the manipulation and recoil management of 9mm caliber pistols challenging.

P220®

THE ONE THAT STARTED IT ALL

With origins dating back to the late 1970s, the P220 is considered by many to be the one that started it all for SIG SAUER. This classic has been reborn, with the same quality, accuracy and reliability that the Swiss Army has relied on for decades. The P220 was built to meet and exceed rigorous military standards. Available in both carry and full-size, the legendary P220 lives on, allowing you to put all-metal power in your corner.

ROMEOZERO ELITE™

PREMIUM POLYMER OPEN REFLEX SIGHT

The ROMEOZero-ELITE shares the same ultra-compact size and mounting footprint* of our popular ROMEOZero micro red dot, but is loaded with a host of premium upgrades. Starting with the scratch-resistant glass aspherical lens delivering unmatched clarity and a distortion-free sight picture when compared to competitors, the proprietary carbon-infused polymer housing with reinforced lens area also gives the ROMEOZero ELITE an even greater level of drop protection, making it incredibly rugged. The optic also comes with a hardened steel protective shroud for an even greater level of durability. The ROMEOZero ELITE features the brand new circle-dot reticle for even faster, more instinctive acquisition and our new T.A.P. (Touch-Activated Programming) technology gives the user the ability to change brightness and reticle options with just a tap on the optic. All rear surfaces of the housing have anti-reflection grooves molded in, including the backup rear sight notch which is marked with Grade A Swiss SuperLuminova® pigment for visibility in dark environments. And just like our original ROMEOZero, the new ROMEOZero ELITE is fully assembled in the U.S.A. in our state-of-the-art facility in Oregon.

ROMEOZero ELITE

- ▲ Carbon-Infused WeaponsGrade Ultralight Polymer Housing with the ROMEOZero/ Shield RMSc Footprint, Provides Increased Shock and Drop Protection
- ▲ Compatible with Springfield Hellcat OSP & GLOCK G43X MOS Pistols
- ▲ Aspherical Glass Lens with Zero Distortion
- ▲ Circle-Dot or Single Dot Reticles For Fast Target Acquisition

SIG V-CROWN

JACKETED HOLLOW POINT PISTOL CARTRIDGES

SIG V-CROWN® defensive rounds combine perfected material specifications and fine-tuned design innovations. Featuring a stacked hollow point cavity, to deliver exceptional on-target energy, with maximum weight retention and optimal expansion for the ultimate in stopping power.

FEATURES

1. V-Shaped Jacket with Skives and Scores to Provide Controlled, Uniform Expansion
2. Patented Stacked Hollow Point Bullet Design with Additional Hollow Point Cavity
3. Unique Toothed Cannelure Ensures Maximum Weight Retention and Terminal Expansion
4. Coated Nickel Cases Provide Enhanced Lubricity, Superior Corrosion Resistance, and Reliable Feeding and Extraction
5. Low Flash Propellant
6. Consistent Primers

SIG FMJ

FULL METAL JACKET PISTOL CARTRIDGES

Engineered to match SIG V-Crown™ ballistics for a more seamless transition from training to carry ammunition. SIG FMJ delivers round after round of affordable, premium-level performance. Featuring dependable primers, SIG FMJ durable copper-jacketed bullets match the point-of-impact, recoil, and energy of the SIG V-Crown loads.

FEATURES

1. Full Metal Jacket Projectile Ballistically Matched to Ensure the Same Point-of-Impact as Elite Carry Ammo
2. Lead Core
3. Bullet Weight and Load Spec's Matched to Elite Carry to Ensure Consistent Felt Recoil and Barrel Rise
4. Brass Cartridge Cases
5. Clean Burning Powders
6. Consistent Primers

FEATURES

- ▲ Brass Cartridge Cases
- ▲ Fully Reloadable
- ▲ Dependable Primers
- ▲ Made in the U.S.A.

PRECISION 300 BLACKOUT

Engineered with the SIG MCX® mission configurable rifle in mind.

SIG 300BLK Subsonic 220gr

Propellant chemistry was optimized to produce the ideal down-bore pressure for cycling both piston and gas-driven platforms. SIG 300BLK Subsonic rounds minimize recoil, sound, and muzzle flash, and increase mass for maximum energy on target.

SIG 300BLK Supersonic 125gr

The SIG supersonic FMJ training ammo is the ideal mix of reliability and economy. Ballistically match with our duty ammo allows for easy transition between the range and the field.

SIG 300BLK Subsonic 125gr

The ultimate balance of terminal performance, reliability, and accuracy for suppressed systems. The SIG 194gr duty design leverages a decade battlefield feedback to provide the new standard subsonic performance.

SIG 300BLK Supersonic 110gr Duty Round

Utilizing the legendary 110 gr TTSX™ projective, the SIG duty loading has optimized the terminal performance out of short barrel systems.

FEATURES

MODX PISTOL

SUPPRESSORS

The MODX pistol suppressor line from SIG SAUER® features completely modular and configurable titanium baffles for the ultimate in lightweight performance that allows the user to personalize their suppressor for overall length, weight, and sound. The MODX-9 and MODX-45 provide class-leading sound performance and can be easily disassembled and reconfigured with fewer baffles when your priority is size over sound. The MODX suppressors feature 21 points of impact adjustment and come with a fixed barrel spacer for carbine use. Each MODX suppressor includes the most popular inch and metric piston for its given caliber.

SLX RIFLE

SUPPRESSORS

The SLX series of rifle suppressors feature the new Clutch-LOK QD mounting system which is easy to use, repeatable, and extremely durable. The internal multi-flow path within the SLX suppressors allows gasses to exhaust at a faster rate than traditional baffle-style suppressors. This results in 70-80% less toxic fumes flowing back through the ejection port into the shooter's face. The SLX series is a performance-based suppressor designed for use with supersonic ammunition and ideal for users focused on flash reduction and lower toxic fumes. The new low-tox SLX suppressors deliver a superior shooting experience, unlike any other suppressor.

The internal multi-flow path of the SLX with low resistance exhausts gases at a faster rate than traditional baffles. SLX features 70-80% less PPM than traditional baffle suppressors.

SLH RIFLE

SUPPRESSORS

SIG SAUER is proud to introduce the new SLX and SLH series of suppressors. Both the SLX and SLH were developed to meet the demands of the U.S. military, and are designed to deliver cutting-edge performance.

The SLH series of rifle suppressors also features the new Clutch-LOK QD mounting system, and an internal multi-flow path with a focus on sound reduction, while also reducing up to 50% of the toxic fumes venting through the ejection port. The SLH is ideal for users that use both supersonic and subsonic ammunition, and are optimized for sound reduction.

With a team of world class instructors, from a broad range of backgrounds, the SIG SAUER Academy provides the finest firearms and tactics training available today. Using our objective and performance-based training methods we can help develop and expand the abilities of virtually any level of firearms user.

Our expert staff of instructors have the unique ability and experience that allows them to train all types of firearms users, from beginners to experts, from civilians to elite military, and law enforcement agencies. The SIG SAUER Academy is committed to delivering the best, most realistic, fundamentally sound training experience possible. We'll make you a better shooter. Guaranteed.

For course descriptions, schedules, and more, visit sigsaueracademy.com

FACILITIES

The SIG SAUER AcademySM offers 140 acres of state-of-the-art indoor and outdoor training facilities. We have developed a variety of ranges and infrastructure allowing us to create almost any type of environment and to prepare for practically any situation. Facilities include:

- 26 Different Live Fire Ranges
- 1,000 Yard Rifle Range
- 2 Live Fire Shoothouses
- Indoor Pistol and Rifle Ranges
- 270 Degree Range
- Tactical Training with Breaching Capabilities
- Obstacle Course
- Vehicle Defense Range

Additionally, the SIG SAUER Academy is home to the **factory-direct SIG SAUER Pro Shop**, displaying the entire line of SIG SAUER pistols, rifles, electro-optics, suppressors, ammunition, air guns, accessories, and apparel.

PRIVATE AND MOBILE TRAINING

The SIG SAUER Academy is dedicated to providing the highest level of training available, tailored to fit any individual or organized group needs. We provide customized private classes at our Academy, or we can take our expert training to a private location upon request.

Private classes for corporate and executive clients, as well as government agencies and private groups, or individuals, are available either as a standard course listed on our website or as a custom class designed to your specific needs. Private instruction ranges from foundational shooting tutorials to advanced dynamic tactics in a one-on-one or group learning environment.

INTERNATIONAL CUSTOMERS

The SIG SAUER Academy has a diverse staff of expert, bilingual instructors that provide the highest level of training and instruction to international civilian and military/law enforcement customers.

SIG SAUER Academy staff have consistently trained with some of the world's most elite counterterrorism units, providing expert instruction across a wide range of training needs. Our staff and facilities can provide any level of instruction needed to international clients, and can provide all of the necessary equipment and materials, including all tactical equipment and firearms no matter what manufacturer or platform is required.

ABOUT OUR COURSES

PISTOL/RIFLE/SHOTGUN/PRECISION SCOPED RIFLE

The SIG SAUER Academy has programs that are designed to achieve results across a broad range of platforms, from pistols and rifles, to shotguns and precision long-range shooting. All courses are taught from a foundational level and have a progression structure allowing students to develop their skills at their own pace. Depending on your personal training objectives, we offer classes for personal and home defense, individual skill building, and instructor certification.

ADVANCED TRAINING

Advanced training courses are designed to take a student's skills to an extremely high level. These classes help provide students the knowledge, skills, and confidence to improve their performance and decision-making in a high-risk, high-stress environment. These courses include specific subjects such as low light pistol and rifle, advanced medical training, executive protection, as well as vehicle and scenario-based training.

ARMORER

SIG SAUER is one of the many major manufacturers that offers civilian armorer courses. Our armorer's certification gives students a complete and thorough understanding of SIG SAUER firearms, proper maintenance techniques, and inspection processes. These courses are designed to provide all of the necessary information to preserve the firearms factory warranty. Students who successfully complete these courses receive a three year armorer certification.

LAW ENFORCEMENT/MILITARY

SIG SAUER Academy is dedicated to providing the highest level of global training for military and law enforcement professionals. Courses include specific subjects such as bus and vehicle assault, night vision, breaching, and direct threat care. Any course can be conducted remotely or customized to meet agency or department needs. Custom course design and implementation allow for any desired capability and duration of training. The SIG SAUER Academy also has physical fitness facilities available to visiting groups at no charge.

TRAINING

SIG SAUER ACADEMY

MORE THAN TRAINING. A DESTINATION. SIG SAUER ACADEMYSM is located in the Seacoast region of New Hampshire, just an hour north of Boston, and an hour south of Portland, Maine. New Hampshire is home to 18 miles of New England coastline and beaches, and is situated approximately an hour away from several top-rated ski resorts in the White Mountains. Nearby historic Portsmouth is a favorite tourist destination, featuring nationally-recognized restaurants and cuisine, outdoor sight-seeing activities, local boutiques, tax-free shopping, and a thriving nightlife. There are several major transportation hubs allowing easy access along with a wide variety of accommodations available nearby.

ACCOMODATIONS

Through partnership with SIG SAUER®, we offer special rate arrangements with local hotels in Exeter, Dover, and Portsmouth NH, all within 10-30 minutes of the Academy.

TRANSPORTATION

The SIG SAUER Academy is about 30 minutes east of Manchester, New Hampshire Airport (MHT), and about an hour north of Boston International Airport (BOS) in Massachusetts. Some SIG SAUER partner hotels also offer students free shuttle access to and from the Academy.

EXETER

Boasting tree-lined streets and a wealth of historical architecture, Exeter is a quick 10 minutes from the Academy and hosts three of our preferred hotels. With ample restaurants, shopping and night life, this picturesque river town is a convenient place to stay while training at the Academy and is roughly 10 miles inland from the coast.

PORTSMOUTH

Venture into downtown Portsmouth, where you'll find a steady mix of modern and historic flair. From cobblestone-lined streets and historic buildings, to waterfront dining and local breweries, Portsmouth is not to be missed while here.
