INTRODUCTION

Congratulations on the purchase of your ROMEO5™ Compact Red Dot Sight. The ROMEO5 is a compact, closed red dot sight for use with modern sporting rifles, carbines, shotguns, crossbows and air rifles. The ROMEO5 features a crisp, bright 2 MOA dot for rapid target acquisition in any situation. The sight comes with a 1.41 inch absolute co-witness Torx cross-bolt riser mount. Your ROMEO5 features MOTAC™ which will extend your runtime beyond 40,000 hours of normal use.

The ROMEO5 is covered by the SIG SAUER Electro-Optics Infinite Guarantee and SIG SAUER Electronic & Tritium Limited 5-Year Warranty.

CONTENTS:

• ROMEO5 1x20mm Compact Red Dot Sight
• Low Profile M1913 Torx mount (select SKUs)
• 1.41" Absolute Co-Witness Riser Torx mount
• Bikini Style Lens Cover
• Torx installation tool
• Lens Cloth
• CR2032 Primary Lithium Coin Cell Battery

KEY FEATURES:

• High performance red-notch coating for excellent light transmittance and crisp red dot clarity
• 2 MOA Dot with 10 Illumination settings (8 daylight + 2 NV)
• MOTAC™ - Motion activated illumination control powers up when it senses motion and powers down when at rest. Extends LED runtime in excess of 40,000 hours in normal use
• 1.41" Absolute Co-Witness Riser Torx mount with each sight. Select SKUs include Low Profile M1913 Torx mount.
• Cast from aircraft grade aluminum for ruggedness and durability
• Side loading CR2032 coin cell for easy replacement without sight removal
• Dependable IPX-7 waterproof and fogproof performance
• SIG SAUER Electro-Optics Guarantee and SIG SAUER Electronic & Tritium Limited 5-Year Warranty

OPERATION

Installing the Battery

The SIG SAUER battery compartment is located on the right side of the sight where viewed from the front of the rail. Remove the battery cap by rotating the battery cap or a flathead screwdriver 90° in the counter-clockwise (CCW) direction until the battery cap can be lifted off. Note that the negative (-) contact should be facing inward and directly in contact with the circuit board. Insert the CR2032 coin cell battery into the battery compartment with the positive (+) contact facing outward and directly in contact with the circuit board. The positive (+) contact should be facing outward and directly in contact with the circuit board. Insert the battery cap into the battery compartment by rotating the cap in the clockwise (CW) direction until finger tight. Re-tighten the battery cap.

WARNING

If you ever have a problem, no matter the cause, we promise to take care of you when it counts. Please note that our Infinite Guarantee does not provide coverage for failure due to owner misuse, cosmetic damage that does not affect the operation of the product, or failure due to improper or inappropriate use of the product. This warranty does not cover any defects in materials or workmanship, or any misuse or cosmetic damage, or intentional damage, or any consequential, indirect, or incidental losses or damages, or any products repaired without SIG SAUER’s authorization.

LIFETIME GUARANTEE

Infinite Guarantee™, this sight is covered by SIG’s Lifetime Guarantee. SIG SAUER Electro-Optics Infinite Guarantee™: SIG SAUER has manufactured the most rugged, dependable high-performance firearms and optics company worldwide. We understand the importance of quality in the line of fire, at the range or in competition, and the value of electronic optics to turn the sight right to the left, up or down. SIG SAUER wants to make sure your SIG SAUER product is the right fit for your needs. SIG SAUER products are designed to perform well in the field, and if any problems occur, our service team is available to help. The warranty applies only to SIG SAUER products and is not transferable. SIG SAUER reserves the right to modify or discontinue this warranty at any time. To obtain warranty coverage, you must register the product within 5 years of purchase. This warranty is our sole obligation and your exclusive remedy. The warranty is void if the product is modified in any way from its original design or if the product is damaged or misused.

Turning Sight On and Off / Illumination Control

The illumination control is located on the top of the sight, near the top left corner. To turn the sight on, simply press the (+) button. If you turn the sight on for the first time, the sight is in the illuminated setting by default. To turn the sight off and allow it to automatically return to the last viewed setting, press and hold the (-) button for more than 1 second and the LED dot should turn off. Once the sight is illuminated, you can adjust the brightness level by pressing and releasing the (+) button. The brightness setting will increase by pressing and releasing the (+) button, or decrease the brightness level by pressing and releasing the (-) button. The brightness of the sight is adjustable in 8 increments: 0-7 and 8-15. The sight has 10 illumination settings: 0-9 and 10-15. The sight automatically defaults to an illuminated setting when turned on. The sight will automatically shut off after approximately 30 minutes of inactivity. For components not included in the Infinite Guarantee™, this sight is covered by SIG’s Lifetime Guarantee. SIG SAUER’s Lifetime Guarantee is the most comprehensive lifetime warranty on a Firearms/Binoculars product in the industry. SIG SAUER warrants every Firearms/Binoculars product against defects in materials and workmanship, subject to the conditions and limitations set forth below. For products covered by this warranty, we will repair or replace the defective product (at our discretion) without charge. For products not covered by this warranty, we will repair the product or, at our discretion, offer a replacement product at a fair and reasonable charge. This warranty is non-transferable and applies only to SIG SAUER products purchased by the original consumer. This warranty is not valid if the product has been altered, modified, or used contrary to the instructions in the owner's manual. SIG SAUER will not be responsible for any damages or losses resulting from the use of a product. SIG SAUER’s Lifetime Guarantee is its sole warranty and replaces all other warranties, express or implied, including the warranties of merchantability and fitness for a particular purpose.

MAINTENANCE

SIG SAUER recommends the use of a quality lens cleaner for cleaning your lenses. The lens cleaner should be specifically formulated for your lenses and will remove dirt and debris from the surface. It is important to keep your lenses clean to maintain image quality. SIG SAUER recommends the use of a quality lens cleaner for cleaning your lenses.
